

Full-height turnstile

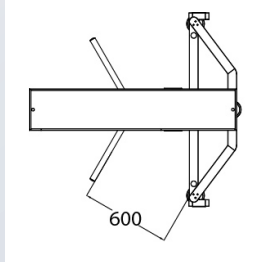

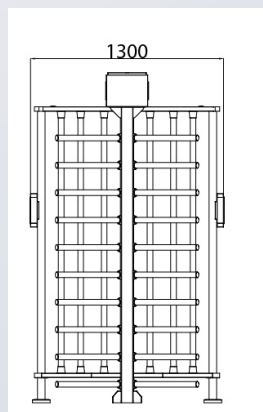

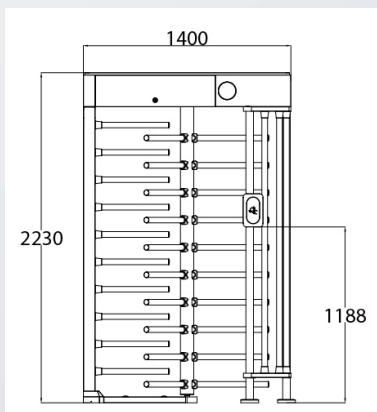

ID GATE 2000

PRODUCT DESCRIPTION

The ID Gate 2000 is a highly functional, full-height turnstile designed for access control areas with high security requirements. It is ideally suited for swimming pools, fitness centers, parking garages, airports, industrial and production facilities, as well as public transportation systems.

The combination of robust stainless steel construction, low-noise operation, and versatile control technology ensures smooth and reliable access control around the clock.

DIMENSIONS

HIGHLIGHTS

- Full-height turnstile for high-traffic security areas
- Low-noise operation with durable, long-life mechanical components
- Flexible configuration: open or closed operation, with or without memory function
- Automatic re-locking if not used within a defined time interval
- Supports IC cards, ID cards, scanners, and facial recognition systems
- Selectable open or closed operating modes
- Robust stainless steel housing, suitable for indoor and outdoor use
